Summary:
Adaeze Ndupu is a budding front-end developer with 3 years of experience converting still-life designs to interactive and responsive websites.
She is a problem solver and pursues user satisfaction from creating websites and products that provide solutions to companies or individuals

Technical Skills:
- Programming Languages: JavaScript
- Frontend Development: React, Next.Js
- Version Control: Git/GitHub
- Agile/Scrum Methodologies
- Styling: Tailwind CSS, SCSS, Bootstrap
- Frameworks: Webflow, Wordpress

Professional Experience:

Code Funhouse [Birmingham, England, United Kingdom] [October 2023 - Present]
- Frontend Developer:
  - Successfully migrated the existing codebase from React to Next.js, ensuring compliance with Next.js conventions and best practices.
  - Collaborated with cross-functional teams to design and implement RESTful APIs, enhancing system interoperability.
  - Conducted a comprehensive codebase refactoring to eliminate code redundancy, leading to a more efficient and maintainable codebase.
  - Participated in Agile development methodologies, managing tasks through sprints and actively engaging in meetings to enhance the system's overall performance and functionality.

Warehöuzit [Lagos, Nigeria] [Nov 2022 - Sep 2023]
- Lead Frontend Developer:
  - Developed and implemented user-friendly, responsive web interfaces using React, Tailwind and Next.js.
  - Collaborated with other developers, designers, and stakeholders to create visually appealing and functional websites
  - Conducted code reviews and quality assurance testing to ensure the website was free of errors, bugs, and inconsistencies.

- Conducted research on emerging web development trends, tools, and technologies to enhance the website's functionality and usability.

Education:
Bachelor of Science in Computer Science
Babcock University [Ilishan-Remo, Ogun] [June 2020]
Relevant Coursework: Data Structures, Algorithms, Web Development, Software Engineering

Certifications:
- Frontend Web Developer (No code) - Entry Level
- HTML, CSS, and Javascript for Web Developers - Coursera
- Web Design and Development (Frontend) - Side Hustle
- Intro to Programming Nanodegree - Udacity
- Workflow Tools for Web Developers - LinkedIn
- McKinsey Forward Program - McKinsey & Company

Projects:
- [MedBot AI](): Implemented a distinctive symptom input checker with AI-driven targeted questions, auto-suggestions, and detailed reports, enhancing user experience and diagnostic precision using React, Next.Js and Tailwind.
- [GetLinkedAI Pre-Hackathon Website](): Developed a responsive website for the GetLinkedAI Pre-Hackathon using React, Next.Js, Tailwind and Framer Motion.
- [A Portfolio Website](): Developed a portfolio for a friend based on his design using React, Next.Js and Tailwind
- [Slack Homepage]() - Webflow
- [BlogosphereHub]() - Tailwind and React

Portfolio:
- [GitHub Profile]()
- [Personal Website]()

Volunteering
- Frontend Developer, CodeSpace (May 2023 - June 2023)

Languages:
- English (Native)

Interests:
- Open-source contributions

- Hackathons
- Games and Animes
